Experience

Unicorp / Senior Frontend Engineer

AUGUST 2025 - PRESENT, TASHKENT

- *MyCare* – Landing page and admin panel for an app that allows users to **book nurses, nannies, or child massage** specialists at home. Implemented service scheduling, real-time notifications, and admin management features.
- *iQUB ERP* – Enterprise **real estate company management** ERP system to manage their objects, sales, finance, and employees. Developed 500+ components across 100+ pages and implemented a multi-role dashboard system with RBAC, supporting 12+ user roles with dynamic routing and permission management. Built CRM features, including **lead management** (Kanban boards), **client tracking**, **payment processing**, **debt management**, and automated **financial reporting** with real-time data visualization. Developed **warehouse inventory management system** with automated stock tracking, order processing, and Excel/PDF export capabilities.

Kliro Tech / Senior Frontend Engineer

JUNE 2025 - DECEMBER 2025 (part-time • freelance)

- *Kliro Web Portal* – An enterprise real web portal for searching and finding the best of **bank services, insurance, airline tickets, and hotels** with powerful **SEO**.
- Powerful and scalable admin panel and dashboard for the web portal

Pharmaceutical Development Agency / Frontend Engineer

FEBRUARY 2024 - SEPTEMBER 2025, TASHKENT

- *GxP ERP* – Secure local admin panel to support **GxP applications** and **streamline inspections**.
- *Pharm Portal* – Multi-service platform for the **pharmaceutical industry**, supporting various internal and external services. Implemented **eSign** and **OneID** authentication to enhance security and verification. Integrated with external APIs and services.
- *SRMS (Student Record Management System)* – Custom system to manage **student records, academic data, and streamline administrative** tasks.
- *Application and HRM Admin panel* – Centralized admin panel and dashboard for managing **job applications** and **human resources** workflows.
- *PTU Website and Admin Panel* – The modern and powerful website of an **international university** and its admin panel, which is used to

manage content and internal workflows.

Najot Ta'lim / Frontend Mentor

NOVEMBER 2022 - DECEMBER 2024, TASHKENT

- Led frontend development training programs focused on real-world engineering practices and modern technologies. Mentored **400+ students** through structured curriculum, hands-on projects, and code reviews, successfully guiding them to **junior-level** proficiency and job readiness.
- Delivered in-depth training on JavaScript, ReactJS, TypeScript, and NextJS, emphasizing production-level architecture, **clean code**, and **problem-solving**. Conducted live debugging sessions and **real project** simulations, provided **career guidance**, **portfolio reviews**, and **interview preparation**.

Kesh Trade / Frontend Engineer

MAY 2022 - NOVEMBER 2022, TASHKENT (part-time • freelance)

- *KeshTrade Website* – Landing page of the company with powerful **SEO**.
- *ERP system* – Developed a powerful admin panel and dashboard for managing **sales**, **customer interactions**, and **internal data**.

Dev Zone / Frontend Engineer

APRIL 2021 - NOVEMBER 2022, TASHKENT

- *DevZone Website* – Landing page of the company with powerful **SEO**, with a customizable admin panel and dashboard.
- *MyMocks* – Modern and powerful web platform for taking IELTS mock tests online, featuring automated result evaluation. Developed a powerful admin panel and dashboard for the web portal.

Team Pro / Frontend Engineer

SEPTEMBER 2020 - APRIL 2021, TASHKENT

- *TeamPro Website* – Landing page of the company with powerful **SEO**.
- *Task Manager App* – A powerful platform to manage tasks with customizable kanbans.
